13,00 x 3,85 x 1,20m. Height 4,50m.
Build in 2001, John Deere 130 PS
600L Diesel, 600L Water

Geminus was a Greek Astronomer who gazed upon the stars; the Gemini constellation. One of the 88 modern constellations. The Latin translation of Geminus is 'twin'. Coincidentally Jan and Alijda Huibers also have twins beside their daughter Marith; Niels and Koen.

The Geminus is one of our most iconic, comfortable and pleasant ships to sail in. This beloved Valkkruiser motoryacht is from the famous shipyard 'Van der Valk' and built for offering her guests a comfortable stay. Valkcruisers are known by their excellent sailing properties. These characteristic yachts are a familiar sight on the Dutch waters; you would be getting a Dutch experience on board this beauty.

The Geminus offers two separate bathrooms, an attractively designed interior, two toilets and due to the separate cabins there is enough privacy for every guest.

By booking this ship without any experience, the Skippertraining is obligatory.
