Build in 2004, Lombardini 33 PS
175L Diesel, 175L Water

The Haedi is a star in the constellation of Auriga. The star is also as Haedus.

Our Haedi is a Curtevenne 830 from a famous shipyard in the Netherlands. The Curtevenne 830 was the most successful model in her construction time and not without reason! Despite of her dimensions this ship is a spacious and practical motor yacht with 4 berths and a dining saloon that can also serve as a berth for 2 people. The Haedi is a complete motor yacht with the excellent sailing properties that you would expect from a big motor boat. Even fixed bridge heights of 2.50 m. don't present a problem and allow you to find some of the best and quietest moorings in the National Park 'Biesbosch' or in 'Het Groene Hart'.

By booking this ship without any experience, the Skippertraining is obligatory.
