Build in 1975, refit 2019, Nanni 50 PS

240L Diesel, 250L Water

The Myrthe is a tree or shrub with white blossoms and is mainly found in warmer regions and remains green in all seasons. Because of these characteristics we see her as a symbol in many cultures. In general one can say that the Myrthe transmits the breath of life, symbolizes (re) birth and love.

The Boarnkruiser is unique in its class! This ship with its 9.20 and smart layout is very spacious in its class. As a result, the beds on board are longer than usual, allowing you to stay comfortably on board. What makes this ship special is the shower on board and also the low clearance height. This allows you to stay in cities such as Utrecht and Amsterdam. Because of the convertible top it is possible to sit complete outside in good weather. If you do not want this, it is also possible to be covered in the cockpit. Behind the ship is a staircase to the swimming platform which makes it easy for you to swim. On board are four fixed berths and a dinette that can be converted into a double bed.

By booking this ship without any experience, the Skippertraining is obligatory.
